

STEPHEN GREIG, P.E.

Director, Government Affairs

Steve Greig is Director of Government Affairs for Plains All American Pipeline, L.P. (Plains). He is responsible for community outreach and government relations support for the Plains' 901R/903R Pipeline Replacement Project, running from Santa Barbara County, through San Luis Obispo County and ending in Kern County. In addition, he manages Plains' statewide government relations efforts in California and New Mexico. He also serves as a company representative to several business and industry organizations.

Steve has more than 25 years of experience managing regulatory and compliance issues in the oil and natural gas industry, primarily in the Central Coast. Prior to Plains, Steve held positions with California Resources Corporation's (CRC) as Director of Government Affairs for Southern operations and as Government Relations and Regulatory Manager for Venoco, Inc., He also served as the area manager for an environmental consulting company, providing services to clients throughout the U.S. and overseas. Steve began his career as a facilities engineer at Shell Oil Company.

Steve holds a Bachelor of Science (B.S.) degree in Chemical Engineering from the University of California, Santa Barbara and a B.S. degree in Biology from California State University, Fresno.

Greig lives in Santa Barbara with his wife. They have two grown children.
